Makis MITAS - Silver European Champion at Maribor 2015/men's SKEET.

On the 22nd of July Makis MITAS, a Greek World Class Skeet shooter sponsored by Lambro, became for 2nd consequent year **European Silver medalist** in Maribor/Slovenia.

In this very demanding Championship, considered by many as of similar difficulty level as the world championship, Makis showed his class and kept the Greek shooting high on the rank.

After the event he thanked Lambro and revealed how his ammunition, "the cartridges without any mistake" as he calls them, contributed to his confidence and top performance during such a demanding event.

His score was 123/125 which was also the best qualifying performance.

Lambro wishes to express its appreciation and pride of sponsoring such a great shooter and person. Working together with world class shooters Lambro is researching and developing new possibilities to enhance ammunition performance for professional shooters.

M. Mitas, shot with **Lambro Series 5 with 5% antimony Nr.9,5.**
