Op.Electronics Ltd. introduces the Marksmanship Training System-TOP GUN® 2.0

Op.Electronics Ltd. is introducing their latest **TOP GUN® Marksmanship Training System, TOP GUN® 2.0**, which will be on display at the **New Product Center** at the upcoming IWA Outdoor Classics 2016 in Nuremberg, Germany.

What is TOP GUN® 2.0?

TOP GUN® 2.0 is a portable, affordable, and easy-to-use **Computer-aided Marksmanship Training System** that allows users to practice in any indoor space with their own unloaded gun of any caliber.

Users dry fire at an electronic target base, and important data such as: **Statistical distribution of Hit Points, Aiming Path, Triggering Pull Movement, Aiming stability and habitual sighting error**, are **immediately displayed** on their computers.

All these feedbacks are most helpful to **beginner, target shooter, law enforcement professional, long range shooter**, or **instructor**, on the elementary or advanced levels, to enhance their shooting skills.

TOP Features of TOP GUN® 2.0

- 2 ways to secure electro-optic part (E-O Head) on the gun: Rail-mountable or Insertable, making it compatible with a wider range of guns.
- Completely revamped software interface: simple and straightforward, allowing users to setup and navigate with ease.

Op.Electronics, Ltd.

2F, 57 Shing-Ping Rd., Chung Li City, Taiwan. 32058

- Boresighting Mode: make the calibration smarter and more precise by not only correcting the deviation of sighting difference during the calibration process, but also analyzing your aiming stability and giving corresponding shooting suggestions.
- Multiple training modes train and correct different aspects of marksmanship, such as aiming, triggering and response time.
- Durable and long lasting.

Dealers Wanted!

If you are interested in learning about how to become a TOP GUN® dealer, please email marketing@digi-opto.com for more information on the dealer program.

Op.Electronics will be attending the **2016 IWA Outdoor Classics (Mar. 04 – 07, 2016)** at **booth #6-406**. Drop by to view live demonstrations of TOP GUN® 2.0, and chat with staff members to learn more about TOPGUN®'s Dealer Program. We look forward to seeing you at the show!
