

Boly 4G hunting camera launches onto market

Boly Inc., a global high-tech company headquartered in Silicon Valley, will showcase the company's latest 4G trailing camera in **Hall 6-143**.

High Definition Display

BolyRAW Image Technology Patent
1400W Panasonic Sensor , 1080p HD video

MG984G Series

The latest and most advanced 4G trail camera-MG984G will be displayed in the company's booth. With a lightning fast 4G data transferring speed, 30MP photos and 1080p videos, the MG984G can capture subject movement up to 100ft at night, within an angle of 60 degrees.

The trail camera features long range technology, which can sense subjects and capture their images at a further distance, while covering a wider angle, than competitors' cameras.
