2017 CATALOG

In a world full of life-threatening events,
SCCY is with you every step of the way.

MY LIFE, MY SCCY

SCCY HANDGUNS

Loaded with features you might expect to find in a pistol costing twice as much. Take a look and we think you'll agree that it's one of the best values in the firearms field.

RELIABLE ACCURATE DEADLY

Welcome to the 2017 SCCY Firearms Catalog and thank you for taking the time to look at our products.

Fourteen years ago when Joe started SCCY, providing the highest quality pistols at the most affordable price was the driving force of creative design. Today people look at our pistols and marvel, "How can you sell a pistol of this quality at this price?" The answer is simple, SCCY has the presence of **talent, technology**, and the **lack of greed**.

Our **talent** resides within our workforce. Every SCCY employee knows that they are not creating ordinary products. Our employees understand that every pistol has the potential responsibility of saving the life of our customer or their family and they take this responsibility seriously.

Our **technology** is our commitment to the purchasing and utilization of the best manufacturing equipment available. SCCY has state-of-the-art machining centers, and our laser measuring devices are cutting-edge technology. We constantly attend manufacturing technology shows to ensure that our equipment is the latest and greatest. Take a moment and look at the machining on our pistols, it is flawless. Remove the slide and look inside, you won't see tool marks on the hidden parts of our slides. It is this attention to quality and detail that separates SCCY Pistols from those of other manufacturers.

Our **lack of greed** is evident in our retail pricing. Yes, we make money, but we don't price gouge our customers.

SCCY's Perpetual Lifetime warranty is the best in the Industry.

We are proud that our pistols are made by Americans for Americans in Daytona Beach, Florida. In today's uncertain world of **high crime** and **Islamic terrorism**, SCCY provides a tool that is up to the task of **concealed carry self-defense**.

SCCY pistols are **Reliable, Accurate** and **Deadly**.

If you are in the market for a concealed carry handgun, give one of our pistols a try. You won't be disappointed.

NO-QUESTIONS-ASKED PERPETUAL WARRANTY

PERPETUAL WARRANTY AND DEDICATED SERVICE DEPARTMENT:

SCCY provides a unique benefit with each purchase of one of its pistols, and one that is rare in any industry. The SCCY Perpetual Lifetime Warranty travels with the pistol. If you sell the gun, the warranty goes to the new owner.

SCCY SERVICE CONTACT:

Should you require service, simply contact the SCCY factory service center.

CALL TOLL FREE: (866) 729-7599

EMAIL US: service@sccy.com

SCCY Firearms is the fastest growing handgun company in America. All products are proudly made in the U.S.A. by American workers. These are handcrafted products built with the finest materials money can buy. Products are made on CNC machines with customized tooling that allows precise manufacturing with every pistol built. SCCY firearms are simply the best value on the market. Period.

THE KING OF CONCEALED CARRY

SCCY has gained a tremendous amount of the concealed carry market share. Shooters identify with a product and brand that is made in America, is affordable, comes in a color and finish that suites their lifestyle and has a warranty unlike any other in the firearms industry.

SCCY comes in three different models, and an abundance of colors in our two first releases, the CPX-1 and CPX-2. SCCY's are ideal handguns to shoot on the range, back

ups to full sized guns, primary weapons for home and self defense. They are durable and can take a beating in the backwoods while hiking, hunting or shooting competitively.

If you don't have a SCCY, check us out at your local dealer. No doubt it'll fit like a glove, shoot like a champ and save you money compared to other comparable products.

My Life, My SCCY

ROEBUCK QUAD LOCK

SCCY Firearms has engineered the revolutionary **ROEBUCK QUAD LOCK** system that is available on the CPX-3, .380 ACP SCCY pistols.

This unique, advanced technology locks the barrel to four areas in the slide:

- REAR & FRONT LOCK OF THE CHAMBER
- TWO ADJACENT POINTS AT THE FRONT OF THE BARREL

The primary benefit of the **ROEBUCK QUAD LOCK** system is enhanced accuracy, shot after shot. The locking of the slide and barrel, in four distinct locations, ensures that the barrel returns to the exact same location every time the pistol is in battery. There is no "side-to-side" movement of the barrel with the **ROEBUCK QUAD LOCK** system.

CPX-3

SCCY Firearms introduces the all new CPX-3 Pistol in .380 ACP Caliber. The pistol features the Revolutionary "Roebuck Quad Lock" system. This patent pending technology locks the barrel to the Slide in four distinct areas.

The Quad Locking of the Barrel and Slide marries the two components into one solid piece. This improves accuracy by ensuring that the Barrel returns to the exact same location every time the Pistol is in Battery.

The top of the Slide is Laser Etched to reduce reflected glare. This high tech slide treatment provides a clear sight picture in bright light conditions.

The CPX-3 is a highly concealable pistol that can comfortably be shot multiple times at the range. The slide is easy to rack and smooth as silk. Lack of hand strength is not an issue with this shooter friendly pistol that is easily manipulated by all. The magazine capacity is 10 rounds. This is the most advanced .380 ACP Pistol on the market today and is value priced. Quite simply, the CPX-3 is the most gun for the money in the .380 ACP Caliber category.

CPX-1

CPX-2

CPX-3

FEATURES	BENEFITS
Roebuck Quad Lock System (On CPX-3)	Improved accuracy with consistent lock up, reduced recoil
Compact & Concealable	Travel size, no matter where you're going
