www.b2b.kolba.pl

– your trusted place on the internet for outdoor, hunting and military products.

Little bit about us:

Kolba company was established in 2004. Nowadays, it is one of the fastest growing companies in the region. Business activities involve the distribution of entrusted brands and Kolba's product manufacturing. Our priorities:

Hunting – trigger sticks, cameras, cases, belts, hearing protectors, binoculars, rifle scopes, collimator sights, rangefinders, night-vision, thermal cameras, flashlights, knives, sharpeners, guns and ammunition, crossbows.

Military – rifle scopes, night-vision, flashlights, knives, gun maintenance, defensive products (Kolba produced pepper gas pistols, tonfas, knives, handcuffs, personal alarms, tasers), handguns and ammunition.

Outdoor – airguns, pistols, pellets, bows and accessories, binoculars, flashlights, knives, sharpeners, multitools, metal detectors, outdoor equipment.

We possess all necessary certificates for international trade of dual-purpose products and fire-arms according to the WSK Internal Compliance Programme standard. The introduction of the management system ISO 9001:2015 also ensures the quality and safety of all transactions for our customers.

The introduction of WMS (Warehouse Management System), a new Internet site Kolba.pl and one of the most advanced Internet B2B platforms in 2017 in Poland pushed our development to higher levels. We adopted new IT solutions to even more efficiently respond to our customers' needs and demands.

Kolba's located in the heart of Europe, close to the transport junction of two motorways and nearby major logistics companies ensure quick deliveries to all destinations across Europe.

A proven and solid supplier is a firm foundation to build your company.

Sign up!:

Start working with us right away! Enter **www.b2b.kolba.pl** in your browser, click language and currency selector (glob icon) to choose preferred settings then click on the sign up link and enter your company details.

Sign in!:

As soon as your account becomes active visit our B2B platform (**www.b2b.kolba.pl**) again and start browsing thousands of products easily and comfortably. Simply enter your email address and password into the right column, click sing in and voilà, you are ready to go!

When you complete your registration form within a short time our operator will process your data and activate your account (mostly of the time it happens in a few hours). You will receive confirmation via email.

First steps:

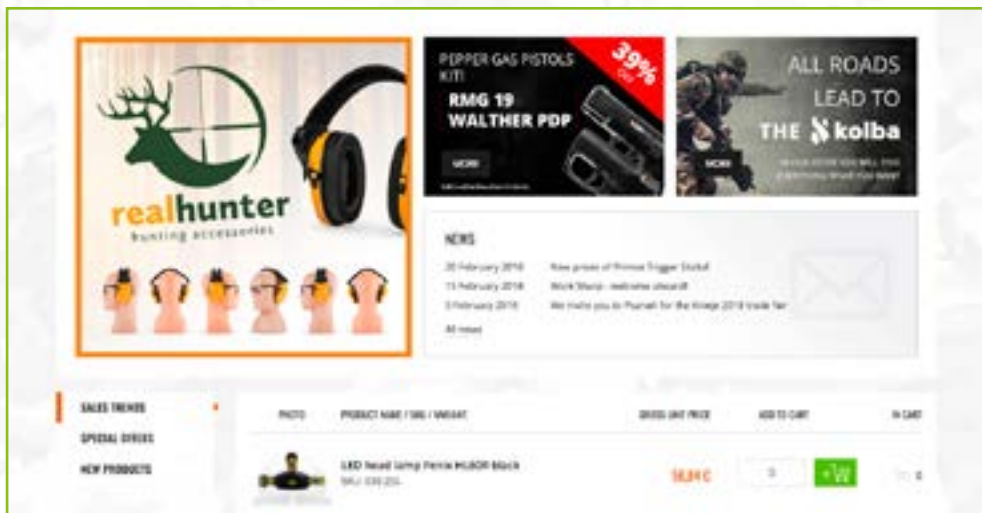

So you are logged in, let us explain how to use the B2B platform effectively. On the first page you will see the main bar, banners, news and suggested products. Let's start with the main bar.

Here you can find:

- * prompting browser
- * categories button
- * account settings and log out option
- * language and currency settings
- * your cart value and checkout

Below the main bar you will see banners and a news column where you can find special deals, new products, product of the day and important announcements like price changes, shows which we are going to attend and many other pieces of information which we think you should know about it.

Account configuration:

Quite an important place to visit. Click on the main bar account settings link to be redirected to your account details, where you can:

- * see your order history (not only placed via the B2B platform but also by phone and email)
- * see your invoices, credit notes and download them if necessary
- * edit your delivery addresses
- * send a request to update your company data
- * change your account password

You can also find here your account manager person details:

Let's go shopping!

Finally here! Find interesting products by entering the product code, name or specific brand into the search field or browse products by categories using the category tree.

You can add product to the cart directly from products list. Each product has its availability information and in case it is not available you can click "inform me when available" to receive an email message when the product will be in stock again.

Products with planned delivery have estimated delivery dates.

TIP: Do you like smart shopping? Look for bundle offers and save some extra % by buying larger quantities!

Checkout:

As soon as you finish your order click "checkout" to finalize the transaction.

Edit quantities if necessary, choose delivery address, payment method, add some comment to your order if you want to, check the summary to make sure that the final amount is OK and click place order to accept your purchase.

TIP: You want our latest catalog? No problem, just simply tick "Please send me your print catalog" before accepting the purchase and you will get one with your latest delivery.

"That's All Folks!"

Your order is now processing, expect final confirmation from an account manager shortly.

Payment methods:

Payment by bank transfer – we are accepting payments in the following currencies – PLN, EUR, USD and after approval CZK.

Payment by credit card – you can use Dotpay service to pay by credit card but be aware that a 2% payment commission will be added to your payment.

Cash on delivery – we are sorry but currently for foreign customers this option is not available.

Delivery time:

Delivery to countries like Belgium, Denmark, Holland, Germany, Czech Republic, France, UK or Italy will not take more than 3 days. In general, maximum delivery time within the EU is up to 6 working days. Mainly we are sending packages via GLS but in the case of pallets shipments we are using different forwarders.

Your order will be ready to be ship within 24 hours after we receive your payment or payment confirmation.

If you want to use your forwarder let us know about it and we will prepare your order under your special requirements.

Delivery costs:

Depending on which zone you are in delivery costs may vary from 12 to 50 €. In the case of pallet shipments costs are calculated individually.

When your order exceeds the amounts below we will ship your order free of charge!

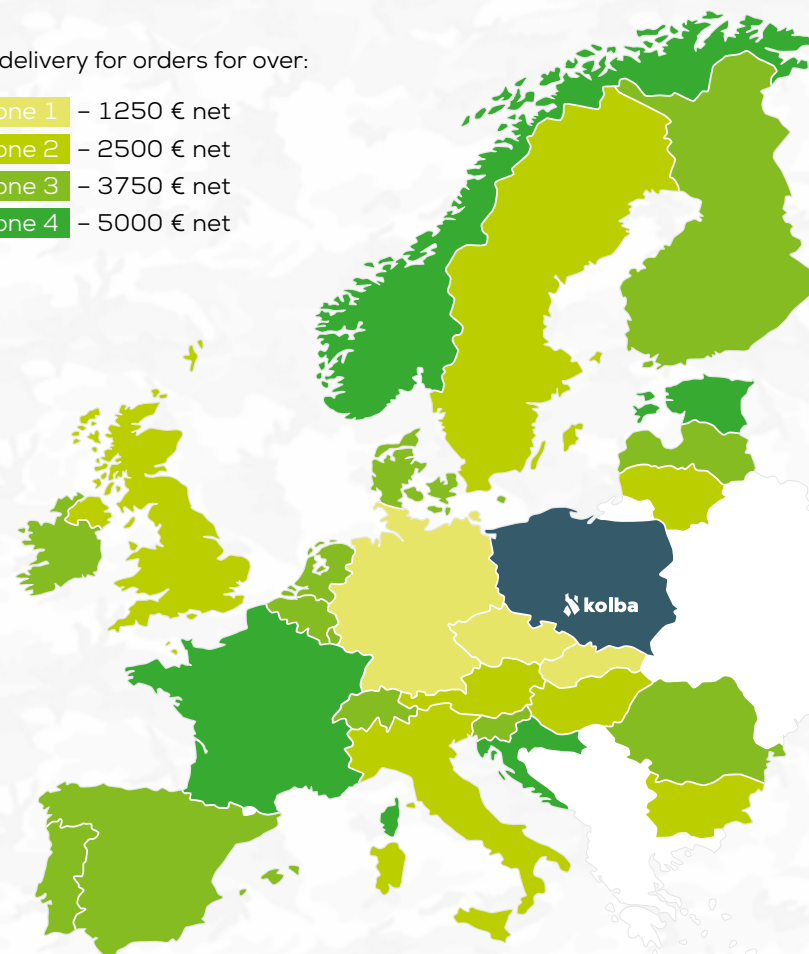

Free delivery for orders for over:

zone 1 – 1250 € net

zone 2 – 2500 € net

zone 3 – 3750 € net

zone 4 – 5000 € net

RealHunter® Ultra Shot camera trap

code: **258-042**

4G/LTE, GPS, black flash
- what else do you need?

RealHunter® is one of the most advanced camera traps in the market. Thanks to the built-in sensor, it enables discreet taking of a photo or to record a video when motion is detected in the nearest surroundings of the camera.

Stored photos or videos can be sent electronically to a mobile phone or e-mail address. What's more, Ultra Shot contains a GPS module! Thanks to it, finding the camera is not a problem even in a dense forest.

- * 4G/LTE technology
- * GPS module
- * 12 mpx resolution
- * black flash

model	code	range
ND30	258-020	4820 m
ND50	258-021	15000 m

At 10 m distance max. focused light radius is 2,5 cm

At 10 m distance max. dispersed light radius is 1 m

Our brands and production:

Pistol Razor Gun GROM

One pistol, many functions

- * pepper spray discharge and noise from blank ammunition at the same time
- * comparability with signal flares

First "all-in-one" gas and blank shot, 6 mm Flobert K pistol. When the trigger is pressed, the gun fires a blank 6 mm cartridge and shoots pepper spray at the same time for a distance of up to 4 m. This solution allows you to use the Razor Gun pistol without authorization in countries where permits are needed for using 9 mm PAK ammunition pistols. In addition, Razor Gun GROM is cheaper in maintenance and operation.

The Razor Gun GROM can be used as a flare gun too. Instead of a gas container, flares container is loaded.

Available September 2018.

Razor Gun Self Defense Series

15 years of experience in the business and 22 years in the production of airguns and self-defense products enabled us to create our own brand Razor Gun.

Pistol Razor Gun RMG-19 PRO

Your safety is our priority

- * available without a permit
- * range up to 4 meters
- * two safety switches
- * up to 9 short time shots or 2 long ones

Razor Gun RMG-19 PRO is an innovative and extremely effective pepper sprayer in the form of a pistol, which has a range of up to 4 meters. The Razor Gun RMG-19 PRO is available without a permit and registration! The active substance is a capsaicin alkaloid, which causes a strong burning sensation of the skin and irritates all mucous membranes.

RAZOR
GUN
PURE POWER

Pistol Razor Gun FURY 4

One pistol, many functions

Razor Gun FURY 4 is a blank pistol, that can perform different functions just by exchanging appropriate barrel blocks.

- * defensive - a barrel block with 4 cartridges containing capsaicin acts as a gas sprayer and can be used for self-defense
- * signal - it can fire flares
- * training - a barrel block containing 10 mm rubber balls that can be shot, the ball is fired with energy of 14 joules (available metal/rubber balls)

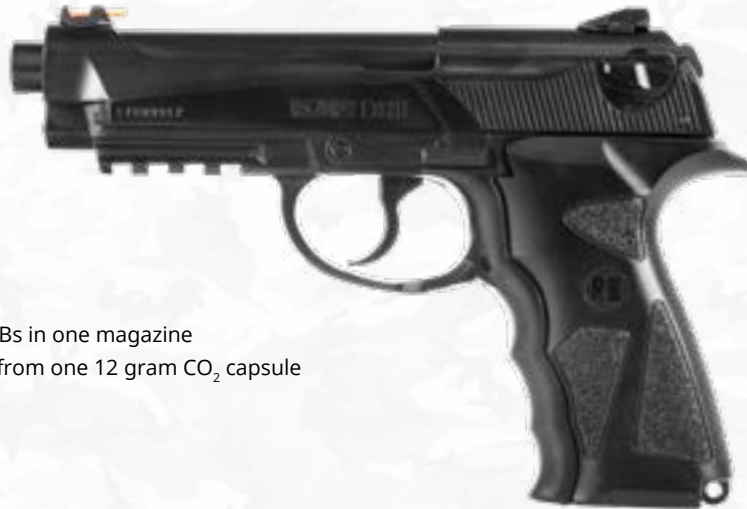

We can produce training barrel blocks with water or paint for the purpose of target marking by special order. Cartridges can be produced in different color variants, to be compliant with different legal regulations.
