

## Airsoft timing system

The PIE airsoft timing system was designed for action air IPSC. It is also a electronic shooting target.

There are 6 traits of PIE airsoft stop plate as below:

1. Two versions: wired and wireless.

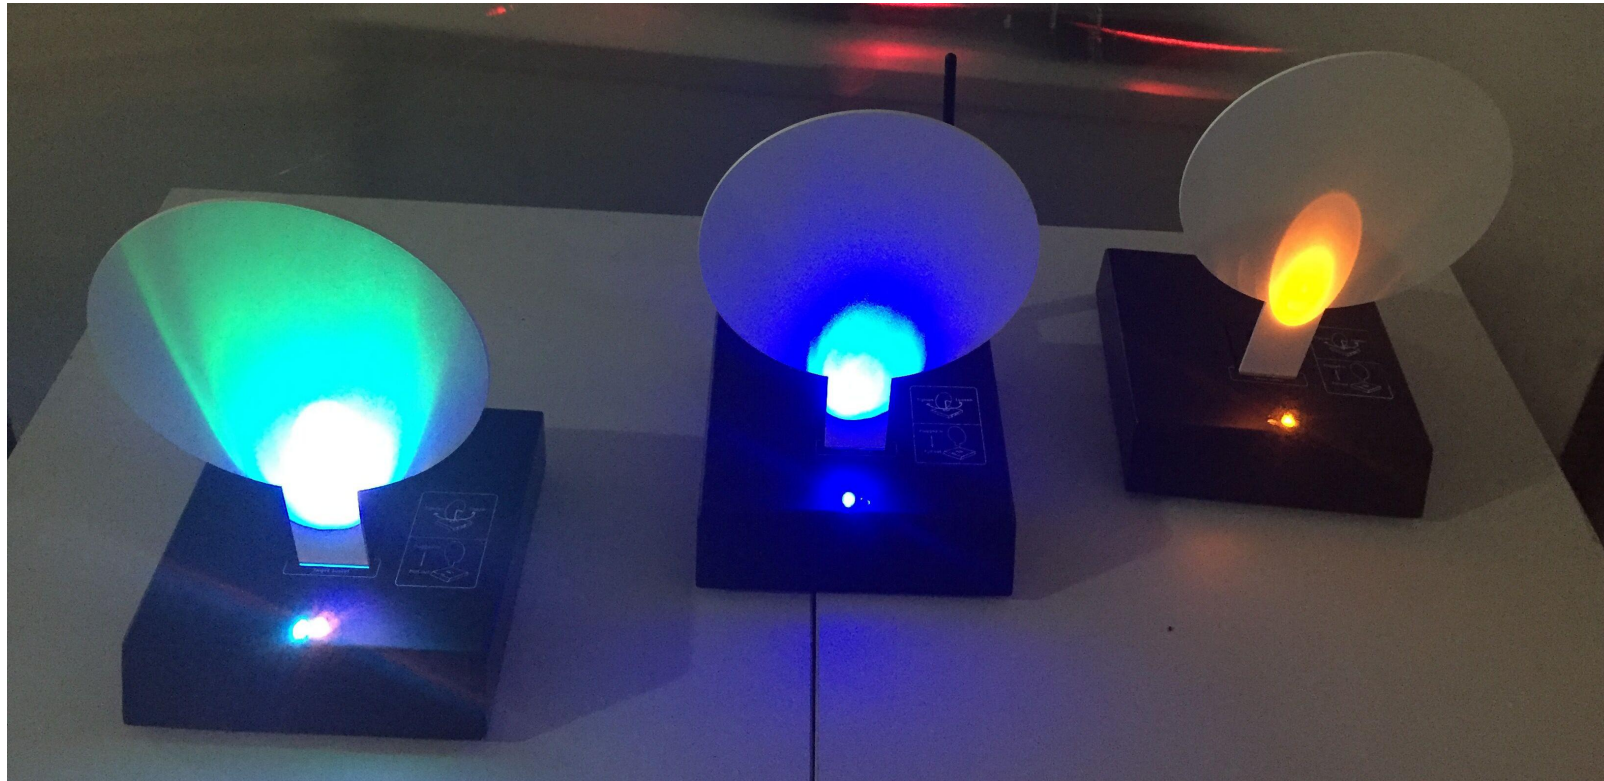

2. Various shapes: birds, rabbits, round, prismatic and so on.

3. It's easy to remove and install.

4. There are different LED light on the bottom of plate. It will change color when was hit.

5. Built in rechargeable battery. removable, It is suitable for outside.

6. screw hole on the back. For fixed on the rack or something else.

## Application

### 1. IPSC,APSC Competitions.

### 2. Shooters training themselves.
