

1791 GUNLEATHER ANNOUNCES GUN HOLSTER BELTS

Made with American Heavy Native Steerhide

Miami, FL, U.S. – (September 10, 2018) 1791 Gunleather®, innovative manufacturer of premium hand-crafted leather gun holsters, introduced two new gun holster belts to their assortment of hand-crafted leather goods. Available now, in Classic Brown or Stealth Black, [1791 Gunleather Gun Holster Belts](#) are designed to meet the highest expectations of every day carriers and include the 1791 Gunleather Lifetime Warranty.

“Thanks to the skill of our expert leather artisans the 1791 Gunleather Gun Belts 01 are practically built for carrying your firearm yet stylish enough to wear every day,” said 1791 Gunleather CEO, Ramiro M. Romani. “And considering the high level of quality craftsmanship combined with premium American leather, they’re very reasonably priced at \$59.99.”

“When you invest in a handgun, its important to choose a strong, purpose-built belt designed to spread the weight of your gun over a wide area,” said Romani. “With lower-quality belts the weight of a holstered weapon can take a toll and cause sagging. 1791 Gunleather Gun Belts 01 offer just enough flexibility to remain strong, secure, and comfortable.”

1791 Gunleather Gun Belts 01 are constructed with full-grain, 14-ounce leather found only on the top and most durable layer of heavy native steerhide. “Our premium American heavy native steerhide is not sanded beyond tanning or dyeing, and the detailed process delivers a superior leather that’s perfect for rugged working belts,” said Romani. “Fashion belts are often made from leather or suede treated with processes that make them softer. Those methods can cause the material to degrade much more quickly, especially when bearing the load of a gun holster. Think of the difference in sturdiness between handbag leather and horse bridle leather. Which would you rather depend on for your EDC gun?” he asked.

1791 Gunleather Gun Belt 01 Features:

- Built for longevity, comfort, and style with 100 percent American heavy native steerhide
- High-quality leather warms and molds to your body
- Reinforced leather delivers added durability for heavier pistols and revolvers, and will not stretch, snag, split, or break
- Quick and easy-to-use stainless steel roller buckle
- Genuine Chicago stainless steel screws for a tight, dependable hold (1791 Gunleather never use snaps, plastic, or synthetic materials of any kind)
- Belt Width: 1.5 inches
- Belt Length: Sizes range from 32/36 to 48/52
- Available Colors: Classic Brown, Stealth Black

- Lifetime Warranty and 100% Customer Satisfaction Guarantee
- MSRP of \$59.99 is a bargain compared to other high-quality gun holster belts

According to Romani, “Our heavy-duty 1791 Gunleather Gun Belts 01 are made to hold all your gear. Anything you want to carry on your waist, from IWB holsters, OWB holsters, flashlights, mag pouches, knives, hammers, tape measures, and multi-tools are options. And because our belts are so rugged, attractive, and versatile, 1791 Gunleather is a top choice among law enforcement, veterans, first responders, and patriots alike. They’re discreet and comfortable for concealed carry, and they’re built to last,” he added.
