

Electronic Shooting Target System

--INTS

Item NO. : IPSC-INTS-SP03

Traits: flexible, smart, arresting

System introduction:

The INTS(intelligent network target system) is a competition and training system. It was composed by one LED board, a controller and a group of pop-up targets(it would be 3 targets,6 targets,12 targets...till to 200 targets.)

Suitable for airsoft gun, paintball, water ball, APSC,IESA and other shooting sports.
You train yourself outdoor ,indoor,anywhere.

Flexible

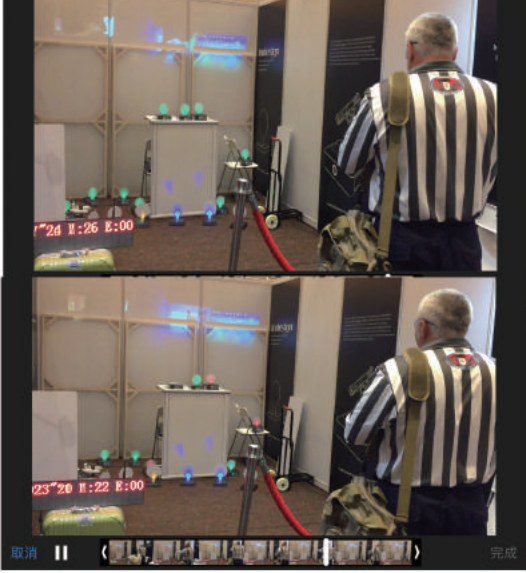

Each target is removable, You can lay it in anywhere of your range,or your home.

Smart

There are all active targets.it will down when it being hit. and for a while he will pop-up in random. Each target will present with green or red color in random and may pop up repeatedly. Green for shot, red for non-shot.The system will records lots information and show to the LED board.

Such as: Total time, hit number,wrong shot number and so on.

Video : <https://www.youtube.com/watch?v=V9BSHarVJqU>

How the plates appear,depends on the controller.

There are 9 modes in the controller, From simple to complex. And you also can reprogram by yourself.

Arresting

Data can showed in LED mode.Easy for show results to people.

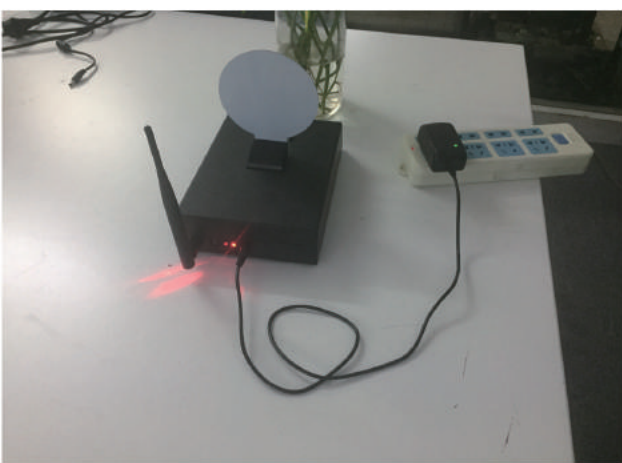

Two people confrontation system will coming soon!
