## **AGM Global Vision is proud to introduce the most technologically advanced lineup of Thermal Imaging, professional grade Night Vision, Multispectral Lasers and Infrared Illumination at the IWA OutdoorClassics 2020.**

**Springerville, AZ** – AGM Global Vision (AGM) is proud to announce the release of several key products to existing line at the upcoming IWA OutdoorClassics 2020 (Booth #3-204). Over the last 46 years IWA OutdoorClassics has developed into a world-leading trade fair for hunting, shooting sports, equipment for outdoor activities and for civilian and official security applications. 61% of the 45,476 trade visitors in 2019 came to Nuremberg from 122 countries outside Germany and 81% of the altogether 1,619 exhibitors too. AGM, a rising leader in the night vision and thermal technology industry, is known for producing rifle scopes, clip-on systems, monoculars, binoculars, goggles, infrared illumination devices and other electro-optical systems. New to the 2020 AGM lineup are:

- **AGM Victrix Thermal Imaging Clip-On**

Compact Thermal Imaging Clip-on system allowing quick transformation of day optics into thermal imaging devices. Available in 2 sized objectives, mounts to front of any daytime scope. Superior clarity, versatility and reliability. High Resolution display, Stadia metric rangefinder, most versatile unit in the market.  
(Victrix TC25, Victrix TC38, Victrix TC50, Victrix TC75)

- **AGM Secutor Thermal Scope**

Dedicated thermal scope built as a compact, rugged, tested device. Provides unmatched clarity and quality in 3 different sized objectives. Picture-in-picture, as well as built in digital zoom. Included Stadia metric rangefinder, no other unit compares for the price point in the market.  
(Secutor TS25, Secutor TS50, Secutor TS75)

- **AGM NVG-50 Night Vision Binocular/Goggle System**

Dual-channel night vision system with 51° field of view (FOV) providing true stereoscopic vision. Built for military or professional use, this commercially available unit is unmatched in function, use and quality.  
(NVG-50)

- **AGM Asp TM-384 Thermal Handheld Monocular**

Equipped with a 384x288 infrared detector and a 1024x768 OLED display, this thermal monocular provides distance measurement, Wi-Fi hotspot and unmatched quality at it's price point.  
(Asp-Micro TM160, Asp-Micro TM384, Asp TM25-384, Asp TM35-384)

- **AGM PVS14-OMEGA Night Vision Monocular**

The AGM PVS14-OMEGA is the lightest multi-purpose night vision monocular currently available. The ultra-light PVS14-OMEGA is designed with new MIL-SPEC light weight optics and an improved battery compartment equipped with digital push button switches that reduces the total weight of the system from 350 grams to only 240 grams. The PVS14-OMEGA has an extended field of view. Its 51° FOV covers a large visual range, without requiring the operator to shift the position of the device.

(AGM PVS14-Omega)

- **AGM Explorator Thermal Imaging Binoculars**

The AGM Explorator is the latest and most technologically-advanced thermal imaging device for observation currently available on the market. This bi-ocular system is made of high-grade aircraft aluminum alloy, making the unit both durable and lightweight. Due to its waterproof capability the Explorator performs well even in severe weather conditions and challenging environments.

(Explorator TB-50, Explorator TB-75)

“These units will provide our customers and users alike with an unmatched level of quality at a price-point to encourage the growth of shooting sports, and the thermal imaging and night vision markets as a whole” said Allen Harding, President of AGM Global Vision. With the continued growth of these industries, AGM’s vision is committed to excellence and becoming the only company you think of when you think optics.

AGM will display their premium line of thermal imaging and night vision devices at Booth #3-204. Dealers or Media members planning to attend the show who would like to schedule a meeting, please contact AGM at [info@agm-support.com](mailto:info@agm-support.com) or at **928.333.4300**.

**About AGM:** AGM Global Vision designs, develops, and distributes a wide range of professional-grade night vision and thermal rifle scopes, clip-on systems, spotting scopes, binoculars, monoculars, goggles, multispectral lasers, infrared illumination devices, and more. AGM Global Vision is a rising leader in the night vision and thermal technology industry and is recognized and respected by professionals and enthusiasts alike. With over 65 years of combined experience, the AGM Global Vision team has contributed to industry- leading companies.
