STS company presents cutting-edge developments for special purpose units

At the “IWA - 2020” exhibition staff members of a famous Ukrainian company STS will present samples of professional tactical gear. The brand’s production is diverse, is used under battle conditions and constantly undergoes modernization considering modern requirements.

STS company was founded in 2004 by a veteran of the Navy Special Warfare Unit. After 15 years in the market STS company has developed a huge assortment of tactical garment models, which includes uniform, backpacks, chest rigs, pouches and a lot more.

In addition to this, the development of all samples is unique, and the testing was conducted with the involvement of active members of the security forces. It is important to note, that all the equipment was created taking into account the peculiarities of different units and the conditions of their work.

Besides functionality and convenience, STS company pays much attention to the goods’ quality. That’s why the best and proven materials are used in manufacturing. Also, STS company provides a 5 year product warranty, unlike any other tactical gear manufacturer in Ukraine.
