

Volquartsen Introduces Camo Editions of Their Black Mamba Pistol

Carroll, IA

The Black Mamba was introduced in 2019 and is the latest addition to the Volquartsen Firearms pistol lineup.

Volquartsen has now introduced Black Camo and Arctic Camo editions of this highly sought-after pistol. Custom colors and patterns are also available.

Competition ready in a push-button takedown configuration. Nothing strikes with the speed and agility of the Black Mamba.

The Black Mamba combines features from the Volquartsen Scorpion 22 LR Target Pistol along with the push-button takedown functionality of the Ruger MK IV 22/45 frame.

The Black Mamba features the Volquartsen LLV Competition Upper designed with a stainless steel barrel, stainless steel breech, and housed in an aluminum shroud. This design provides match grade accuracy in a lightweight package. Available in a 4.5" or 6" barrel length. The integral Picatinny rail on top and bottom is standard.

The Volquartsen Competition Bolt with DLC coating ensures smooth operation and functioning whether it's a day of plinking at the range or competing at the highest level.

The Black Mamba build utilizes a Ruger MK IV 22/45 frame that has been retrofitted with the Volquartsen Accurizing Kit providing a crisp, clean 2.25 lb. trigger pull. The frame has all been fitted with a Volquartsen magazine release which slightly raises the magazine and when used in conjunction with their magazine base pads (included standard) eliminates feeding issues.

About Volquartsen Firearms

Volquartsen Firearms engineers the world's finest rimfire rifles, pistols and parts. We recognize that "handcrafted" doesn't always mean "well-crafted", and that "Made in the USA" doesn't always equate to quality. It's why we're proud our guns and parts are designed and engineered to the highest standards, in Carroll, IA — using only the best possible materials and technologies.
