

## Carbon Express Maxima XRZ Select

<https://www.feradyne.com/maxima-xrz-select/>

### Features:

- **Backbone Technology** - Promotes leading 360 degree spine consistency (Green fibers around the center section).
- **Carbon Weaving** - 100% weaved carbon design for quicker recovery.
- **Tri-spine/RED ZONE Technology** - For industry leading broadhead flight.
- **Lightweight** - Built lightweight for speed and a flatter trajectory.
- **.001" Straightness** - For archers looking for an edge over the competition.

The ultimate light-weight hunting arrow has arrived. Featuring Carbon Express' backbone technology which integrates thin strands of Kevlar into the weave for added strength and impeccable 360 degree consistent spine. When speed is a need and accuracy is a must, the **Maxima® XRZ** delivers the results you're looking for.

**Sizes/Spine:** 150 (.505" spine), 250 (.405" spine), 350 (.335" spine)

**Available In:** 12 pack shafts
