Browning Trail Cameras Spec Ops Elite

The Spec Ops Elite HP4 features the elite level 22 MP image capabilities and the industry's best invisible "Night Vision" IR illumination. With an adjustable flash feature that can extend the invisible IR flash out to 90 ft users will soon see agree that they are getting the market's finest invisible nighttime imagery. The Spec Ops Elite HP4 camera also features Browning's remarkable 1080p Full HD video processor, capable of producing cutting-edge video footage of your game that can be easily viewed on a computer or big screen TV. Other features include a 2" color viewing screen, Smart IR Video technology, and the SD Card Management option that allows users to overwrite older images on the SD card if the memory is full. Finally, with the ability to work with up to 512 GB SDXC memory cards, the Spec Ops Elite HP4 is perfect for the surveillance of game animals that are easily spooked, as well as monitoring around your home or hunting property for security purposes.
