

Browning Trail Cameras – Patriot

The Patriot is the newest addition to Browning's dual lens family of trail cameras, featuring cutting edge military-grade, invisible, IR flash technology. Using Browning's "dual lens technology", the sensor and lens combination for daytime photography is finely tuned to deliver clear, razor sharp images and videos in daylight conditions. In nighttime and low-light conditions, the revolutionary military grade sensor and lens system delivers the industry's finest nighttime photos and videos using invisible Infrared illumination.

The Patriot also features a 2 inch color viewing screen, adjustable night illumination options, and shoots 1080p Full HD videos at up to 60 frames per second. If you are looking for Browning's most feature rich trail camera that operates completely undetectable in the woods, day or night, look no further than the incomparable Patriot from Browning Trail Cameras.
