ADVANCED TECHNOLOGY SOLUTIONS

# TOOLS AND MACHINERY

## CUPS, BULLETS AND CASE PRESSES

- > Transfer Press for Bullets and Case
- > Wet Line Press for Case Drawing
- > Lead and Steel Tip Forming Press
- > Double Effect Press for Bullet and Case Cup

## COMMON AND SUPPORTING MACHINES

- > Bullet and Cartridge Weight Control Machine
- > Cartridge Case Dimensional Control Machine
- > Visual Inspection Machine
- > Cartridge Case Grooving and Trimming machine
- > Cartridge Case Neck Annealing Machine
- > Annealing Furnace

## ASSEMBLY MACHINES

- > Fully Automatic Linking Machine
- > Primer inserting machine
- > Cartridge Loading and Assembly Machine
- > Cartridge Loading and Assembly Machine for 12,7mm

# TRANSFER TECHNOLOGY

ATS TECHNOLOGIES, with headquarters in Skopje, North Macedonia, has more than 40 years of tradition in the field of industrial manufacturing especially in the production of ammunition, and continues with excellence to imagine, design and construct new technology.

In the last years ATS TECHNOLOGIES continuously is investing and growing in terms of developing new products, each uniquely created upon request from the client. Custom made machines creating best performance ammunition with minimum operating cost for achieving highest manufacturing performance is of outmost importance for the overall operations of ATS Technologies, where we specifically produce spare parts, tools and Full line machines for small ammunition.

The set-up that we have opens a wider prospect for future growth and technologies development. We have a highly motivated team that takes creativity to the next level. In our production lines we have a wide range of machines for making tools and spare parts from leading brands such as DMG MORI, Fanuc, etc...

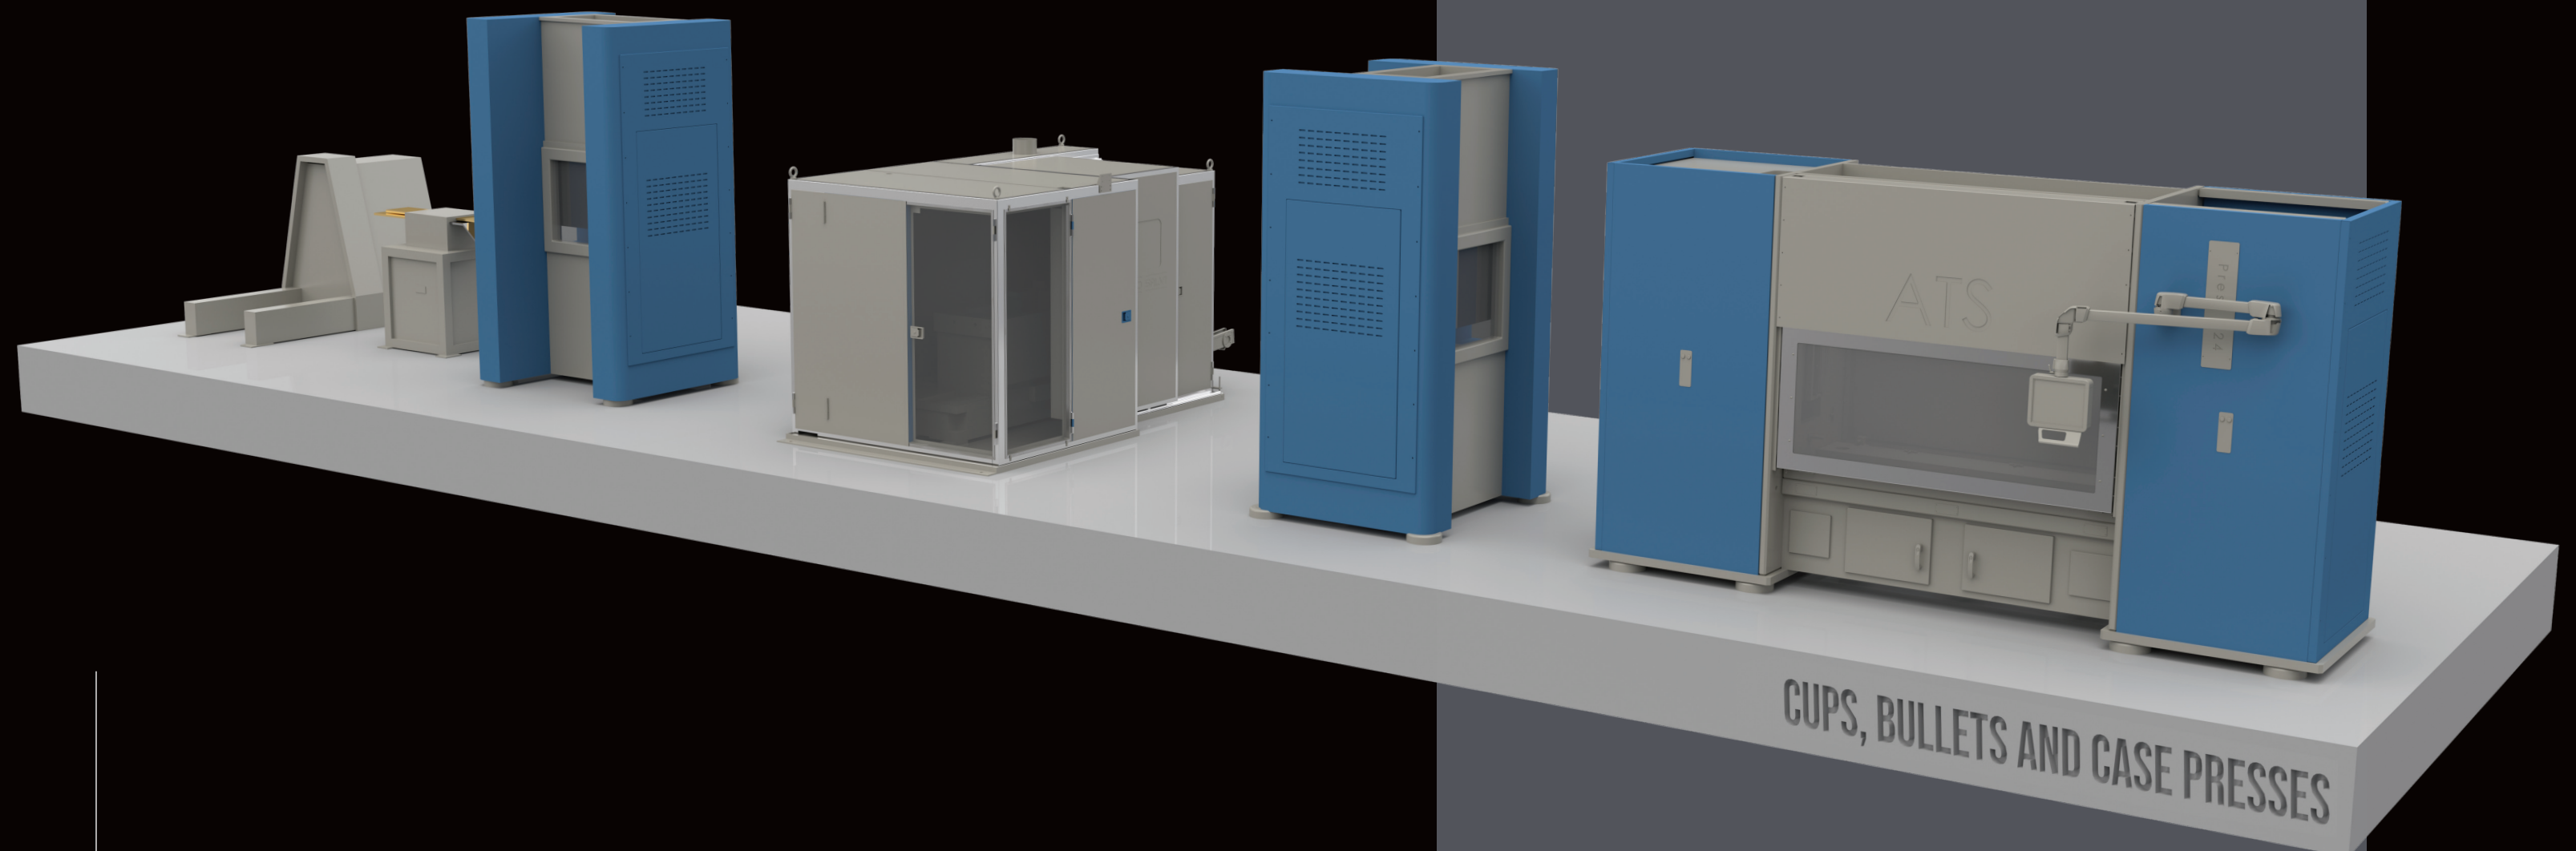

At ATSTECHNOLOGIES, we design, develop and produce highly sophisticated, cutting edge technological solutions for ammunition production.

We produce spare parts, tools and Full production lines for small ammunition for the following calibers:

**9 mm | 5,56 mm | 7,62 mm | 12,7 mm**

**TURNKEY SOLUTIONS FOR SMALL ARMS  
AMMUNITION PRODUCTION FOR  
CIVIL AND DEFENSE INDUSTRY**

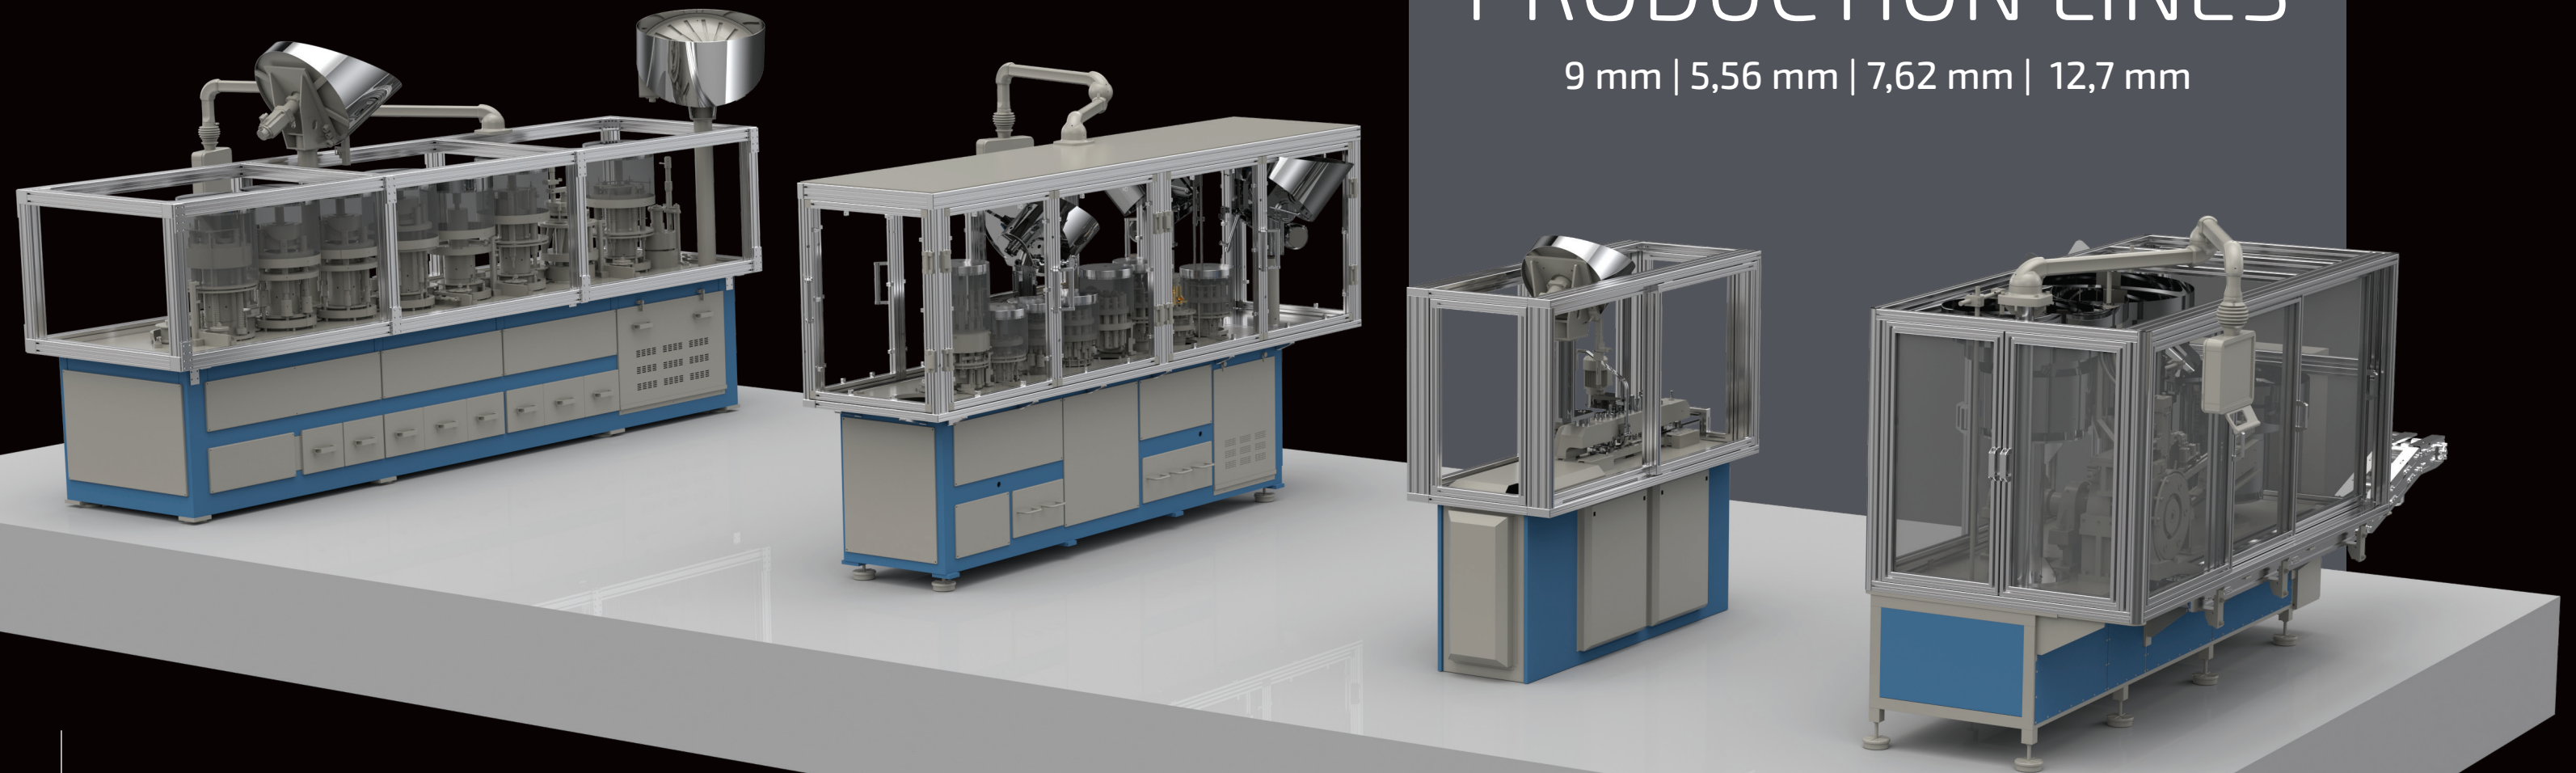

- > Transfer Press for Bullets and Case
- > Wet Line Press for Case Drawing
- > Lead and Steel Tip Forming Press
- > Double Effect Press for Bullet and Case cup

# FULL AMMUNITION PRODUCTION LINES

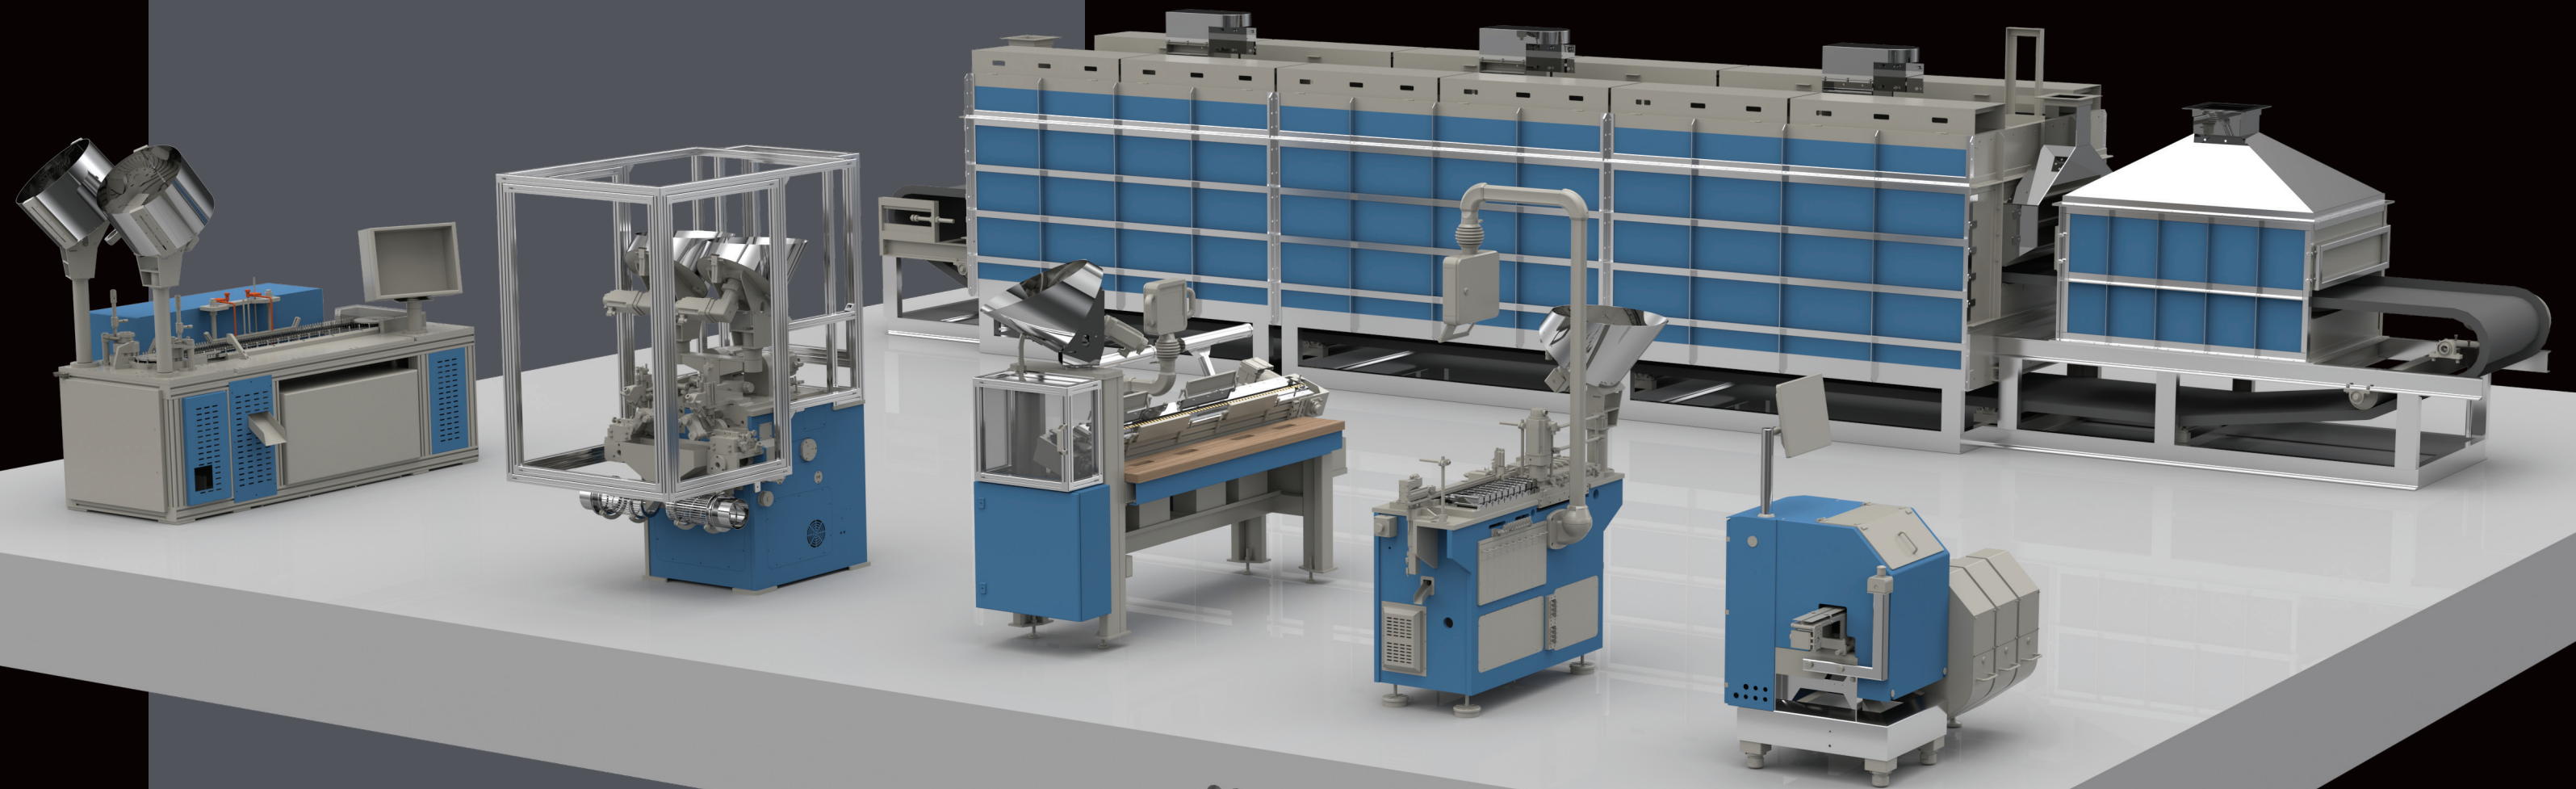

9 mm | 5,56 mm | 7,62 mm | 12,7 mm

ASSEMBLY MACHINES

- > Fully Automatic Linking Machine
- > Primer Inserting Machine
- > Cartridge Loading and Assembly Machine
- > Cartridge Loading and Assembly Machine for 12,7mm
